TOTAL

NOTE: Golden Dawn Gardens will refund the purchase price on any order found unsatisfactory upon receipt, and promptly returned; but no guarantee of growth or satisfaction is given; responsibility for the crop is denied.

Greetings From Golden Dawn Gardens . . .

Once again the Glad season has come to an end and we find ourselves preparing for Old Man Winter. Before the old fellow blows in, we want to lean back in our easy chair for just a few moments to relax, think of all our good Glad friends near and far, and say, "thank you" to each and every one who has had a hand in making this such a happy year for us.

We sincerely hope that those of you who sent in the order form in last year's catalog were satisfied in every way. If for any reason you were not satisfied, won't you please drop us a line. We aim to please and the only way we can attain that aim is by your letters to us.

To those of you whom we have not as yet had the opportunity of serving, we say give us a try this year, — there is a wonderful surprise in store for you.

This year we have added a number of new varieties to our list. We have likewise dropped a few. We like to offer only those varieties that grow the best and are the finest for both fan and commercial grower. We do not drop a variety simply because it is old or cheap in price. We keep it until we find something better.

At times this past season, due to the excessive rainfall in these parts, we wondered if we would ever catch up with the weeds. They were pesty all summer but we finally got the best of them and our pay is really coming in now. The bulbs we are harvesting are about the finest we ever owned. We would like to send some on to you. May we?

BUSINESS TERMS

We want to impress upon you, the Glad raising public, that our aim is today and shall always be to ship you only the finest, cleanest, healthiest, true to name bulbs it is humanly possible to produce. We will cheerfully refund the purchase price of any promptly returned order which is found to be unsatisfactory, but no guarantee or warranty concerning either the growth or flowering of the bulbs is given or implied. Orders are accepted only under these conditions and are subject to prior sale.

All retail orders will be delivered free anywhere in the United States, either by parcel post or by express. Wholesale orders F.O.B. Green Bay, Wisconsin.

Minimum order \$3.00. Overcount or extras with all retail orders.

5% cash discount on all retail orders paid for in full prior to December 15, 1949. Payment in full on all orders before shipment.

No bulblet orders accepted later than April 1, 1950, for Spring shipment.

This price list cancels all previously published prices and voids any heretofore published business terms.

Our stock carries state inspection certificate No. 1820.

Signed

Gordon Shepeck

Introductions

From Walter C. Krueger

We are happy to have the opportunity to offer this year's introductions of Mr. Walter C. Krueger (Reliance Gardens) of Oconomowoc, Wisconsin, namely Keepsake and Cooney Miss.

These two fine additions to the Gladiolus kingdom are both excellent stablemates of Miss Wisconsin, Miss Chicago, Tralee, La Belle and many more from this well-known introducer.

The descriptions are those of the originator and have my backing to the Nth degree. They will be fine additions to any collection of the world's finest flower.

KEEPFAKE (Krueger '50) Class 410.

The petal texture, of an unusual smooth surface, enhances the fine clear color of the florets of Keepsake. The deeper yellow color of the lower petals unmarked by any foreign color add character to its florets.

Coupled with its extreme beauty are traits of easy and fast propagation.

A small percentage of spikes will crook and a few will misplace the lower floret.

Keepsake has no equal in the yellows for floral work in the shop or home.

It blooms in early mid-season from low growing upright foliage. Spikes reach a height of 54 inches. They carry 16 or more buds, five or six of which open at one time.

Price per bulb—Large \$4.00; Medium \$3.00; Small \$2.00; Blts. 10 for \$4.00

COONEY MISS (Krueger '50) Class 540.

The lively soft pink of Cooney Miss has attracted the eye of the experts when they visited its home planting. The unusual features of this fine glad, other than its color and consistent performance, are flat wide open florets of superb texture and its keeping qualities after being cut.

Cooney Miss has all the qualities of a great commercial flower. Its attachment is very secure, it opens in water and propagates easily and rapidly.

Cooney Miss blooms in early mid-season from low-growing plants. Spikes attain a height of 54 inches. They carry 17 or more buds, five or six of which open at one time.

Price per bulb—Large \$4.00; Medium \$3.00; Small \$2.00; Blts. 10 for \$4.00

**Varieties listed by the single bulb price may be had in quantities
of ten bulbs at eight times the single price.**

WINGS OF SONG (443) Ellis '36 Deep pink and cream, blue edge.	3 for .25	5 for .25	10 for .25	50 for .25

Mixtures

In addition to the Glads in this list, we grow almost countless numbers of other varieties in quantities too small to find a place in our catalog. From them and from those included here, we put out special mixtures in which we take great pride. Only the finest and newest kinds are used. All colors and shades are carefully proportioned and blended so as to create the most colorful effect possible. If you are not particular as to any specific variety but just want the best and cleanest blooms, we suggest you plant a goodly quantity of these and you will be well repaid for your efforts and money spent.

MIXTURE No. 1

This mixture will be made up of twenty or more varieties, all bulbs either large or medium in size. With this collection we will include a bulb or bulbs of some very recent introduction, which we think worth planting separately. This bulb will be separately bagged and labeled and literally worth its weight in gold.

100 bulbs for \$6.00

MIXTURE No. 2

A very fine mixture of at least ten varieties in small and medium sizes. All will flower but the blooms will not be quite as large.

100 bulbs for \$4.00

MIXTURE No. 3

If you can't make up your mind, let us do it. Send the amount you wish to spend, with your color preference, and we will do our utmost to delight you with a hand-picked assortment, either mixed or separately labeled, you state which.

Suggestions for Dipping and Spraying

Lysol dip, which we recommend be used on every bulb and bulblet planted, no matter from what source they were obtained.

4 tablespoons of Lysol	to	1 pint of Lysol
	or	to
3 gallons of water		25 gallons of water

Soak bulbs in the Lysol solution for at least 3 hours and not longer than 6 hours. Soak bulblets over night or 12 to 14 hours. After bulbs or bulblets are removed from the solution, allow to drain for a few minutes and plant same day as treated, preferably while still wet.

Dusting or spraying for thrips:

The easiest and most efficient means of controlling thrips is to dust the foliage of the plants with 5% D.D.T. Begin dusting when plants are in third leaf and continue about every ten days to two weeks until the spikes start to show color. Best results will be obtained when the dust is applied to the plants while the dew is still on them.

If you wish to spray, use three rounded tablespoons of 50% wettable D.D.T. and one tablespoon Dreft to 3 gallons of water. Don't let the large amount of D.D.T. worry you, it won't hurt the plant but it will kill the thrips.

You will note in our list we have priced primarily for the small home gardner. We take this space to tell you that our stock due to limited time, help and acreage is necessarily small, — however, we do have a great many numbers in such quantity that we are in position to quote on lots of 100 and 1000. This we can do on most of the older varieties and a great many newer varieties also. If interested, please drop us a line and we will gladly send on our wholesale list or quote on your individual wants.

Please send in your bulb orders now, to avoid disappointments later in the season. Stocks of some varieties are limited, so make your choice now while we have most sizes in all varieties listed. Orders will be filled in numerical sequence and shipment will be made on date requested. Please PRINT your name and address very plainly on order to avoid delays and errors in shipping. Thank you.
